

MACRA & VALUE-BASED PAYMENT SERVICES

The federal government has recently accelerated the move to value-based payment with the passage of the Medicare Access and CHIP Reauthorization Act (MACRA). The law consolidates several existing quality and value programs and makes them applicable to all providers paid through the Medicare Physician Fee Schedule. The law also provides substantial new incentives for health care providers to move to alternative payment models.

Getting ready for the changes in MACRA will take time, and practices need to be ready when new Medicare payment rules for physicians and other eligible providers are released later this year.

The Kentucky REC provides customized services to meet the unique needs of healthcare organizations depending on where they are in the journey to preparing for value-based payment.

ADVISORY SERVICES INCLUDE:

ASSESSMENT

Evaluate Current State

Perform a gap analysis to understand the level of preparedness for value-based payment.

FOUNDATION BUILDING

Education & Planning

Set the foundation for value-based payment through a structured process to improve care, enhance efficiency, decrease costs, and manage patient populations.

STRATEGIC INSIGHT

Value-Based Payment/MACRA Consulting

Evaluate which payment approaches are optimal given current progression and payer mix, and develop an action plan.
