

MEANINGFUL USE SERVICES

Perhaps no other initiative in the history of healthcare has the potential to have such a dramatic impact on both provider organizations and the quality of patient care as Meaningful Use.

However, as many organizations have discovered, successfully navigating the complex and evolving Meaningful Use landscape can be a daunting task.

The good news: Kentucky REC is a proven leader in Meaningful Use support. Kentucky REC has a proven track record of helping providers make progress toward compliance in the most efficient and effective way, which translates into lower costs of implementation, assurance of maximum reimbursements, and protection against penalties and costly audits.

Whether it's ensuring your practice meets a set of core clinical quality measures or interpreting menu objectives in new stages of Meaningful Use, the Kentucky REC has you covered. Our team is trained at identifying and adapting MU work plans that fit with our clients' needs, and more importantly, the patients our clients serve.
