

PATIENT-CENTERED MEDICAL HOME (PCMH)

WHAT IS A PCMH?

NCQA's PCMH Recognition program is a model for improving the organization and delivery of primary care. The medical home model has the potential to transform a primary care practice so that it is more comprehensive, coordinated, patient-centered, safe, and accessible.

PCMH & MEANINGFUL USE

PCMH overlaps with the Meaningful Use incentive program by reinforcing the use of an EHR and Health IT. Stage 1 and Stage 2 Meaningful Use language is embedded into the PCMH Standards, so that Meaningful Users are well-prepared to begin the PCMH transformation process.

WHY PURSUE PCMH?

- Improved Care
- Enhanced Efficiency
- Optimized EHR
- Stronger Market Competitiveness
- Higher Physician, Staff, and Patient Satisfaction

Our NCQA PCMH Certified Content Experts at the Kentucky Regional Extension Center can partner with you to develop efficient, reliable care practices designed for sustainable practice transformation.

A PERSONALIZED PATHWAY TO PCMH

Our framework serves to accelerate your journey to PCMH recognition. We offer adaptable pathways to each level of PCMH recognition, including our Fast Track Program. These pathways are designed to help you achieve recognition in a way that is most easily attainable and feasible for your practice.

RESOURCES TO GUIDE YOU

Through our expert training, coaching, and resources, your staff will be well-prepared to begin the transformation process. Our PCMH Certified Content Experts will help you measure your readiness for PCMH, educate you on best practices, and provide you with an array of resources to ease the process for your staff.

PCMH EXPERTISE

As your PCMH partner, the Kentucky REC offers a variety of services to help empower both small and large health care practices in their journey towards PCMH recognition.

- PCMH Certified Content Experts help you accelerate the recognition process.
- Education on PCMH standards and best practices.
- Documentation review and feedback.
- Advice for overcoming transformation barriers.
- Access to a web-based project management tool for tracking your transformation progress.
- Guidance with the PCMH application and submission process.
