How to Access Quality and Resource Use Reports

Quality and Resource Use Reports (QRUR) were devised as a way for physicians to compare the cost and quality of care they provide to their patients with that of their peers. The 2014 Annual QRURs show how groups and solo practitioners performed in 2014 on the quality and cost measures used to calculate the 2016 Value Modifier. Authorized representatives of group and solo practitioners can access the 2014 Annual QRURs on the CMS Enterprise Portal using an Enterprise Identity Data Management (EIDM) account with the correct role. For more detailed information on how to access the 2014 Annual QRURs, please visit How to Obtain a QRUR at: <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/Obtain-2013-QRUR.html>.
